

ASSIGNMENT-3

Assignment Date	October 12 2022
Student Name	G. Uma
Student Roll No	510419106030

Question-1:

Create a Bucket in IBM object storage

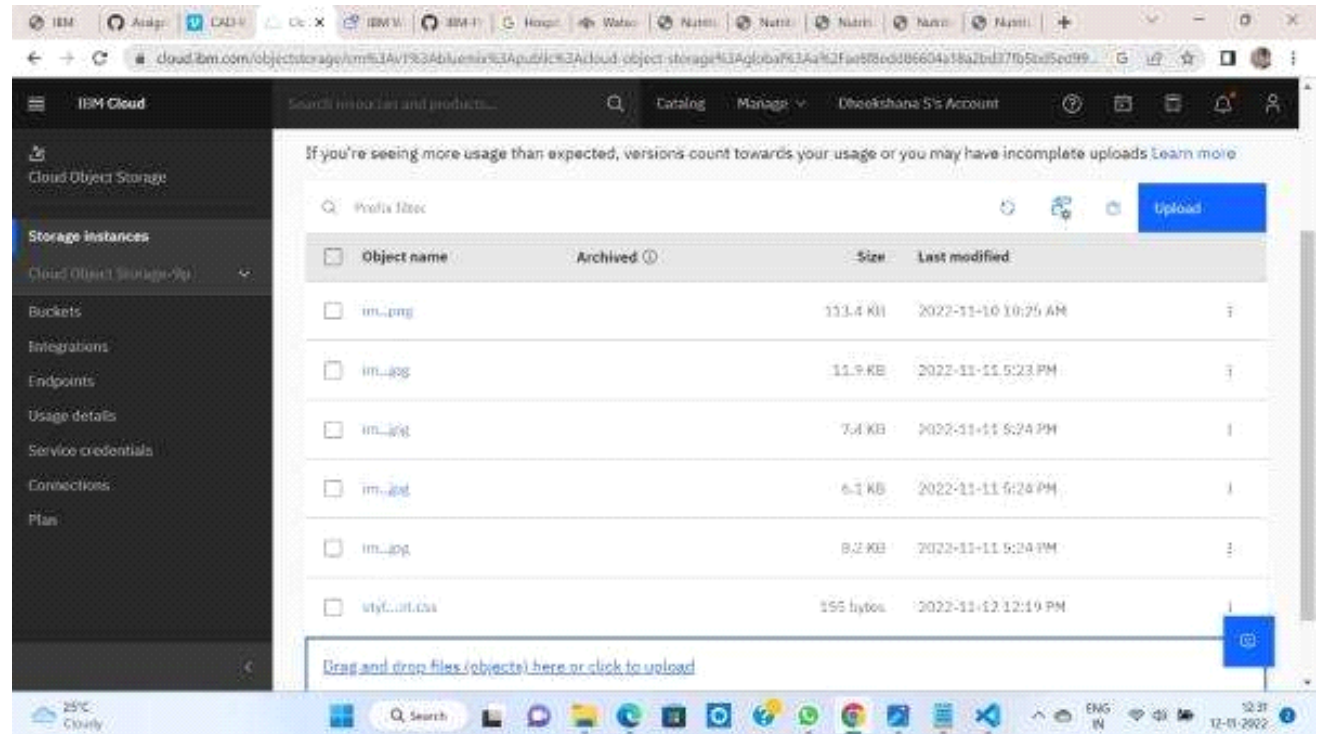

The screenshot displays the IBM Cloud Object Storage interface. On the left, a sidebar menu lists various options: Cloud Object Storage, Storage instances, Cloud Object Storage v2, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area is titled 'Buckets' and includes a description: 'Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.' Below this, there is a search bar and a 'Create bucket' button. A table lists existing buckets with the following data:

Name	Public access	Location	Storage class	Created
max1-29412	Yes	us-south	Smart Tier	2022-11-18 10:24 AM

The bottom of the image shows a Windows taskbar with various application icons and a system tray indicating the date as 11-11-2022 and time as 10:45.

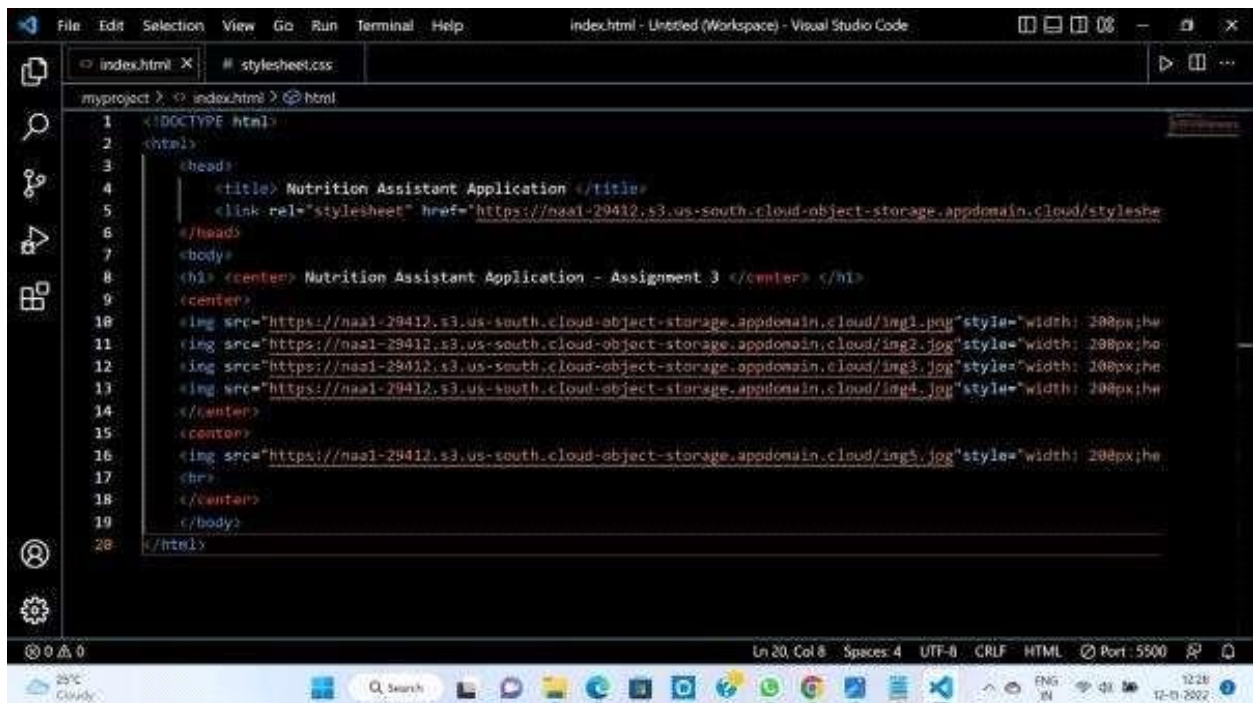

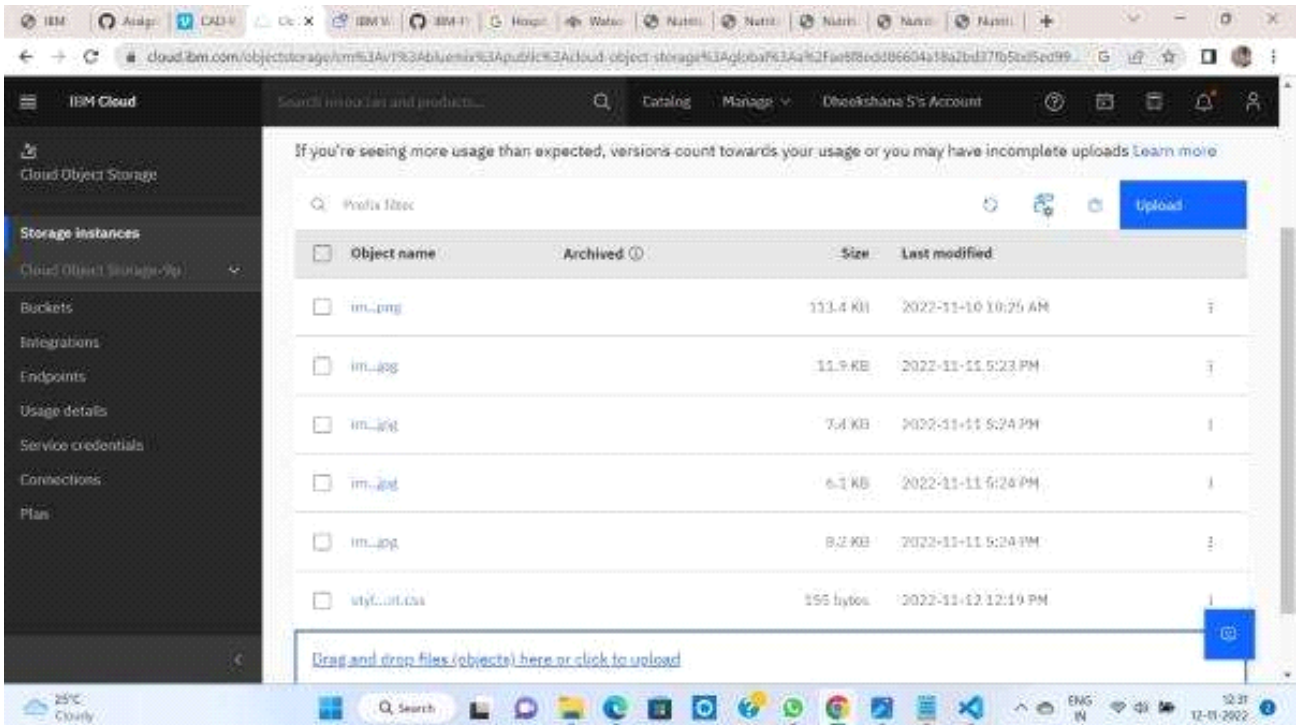

Question-2:

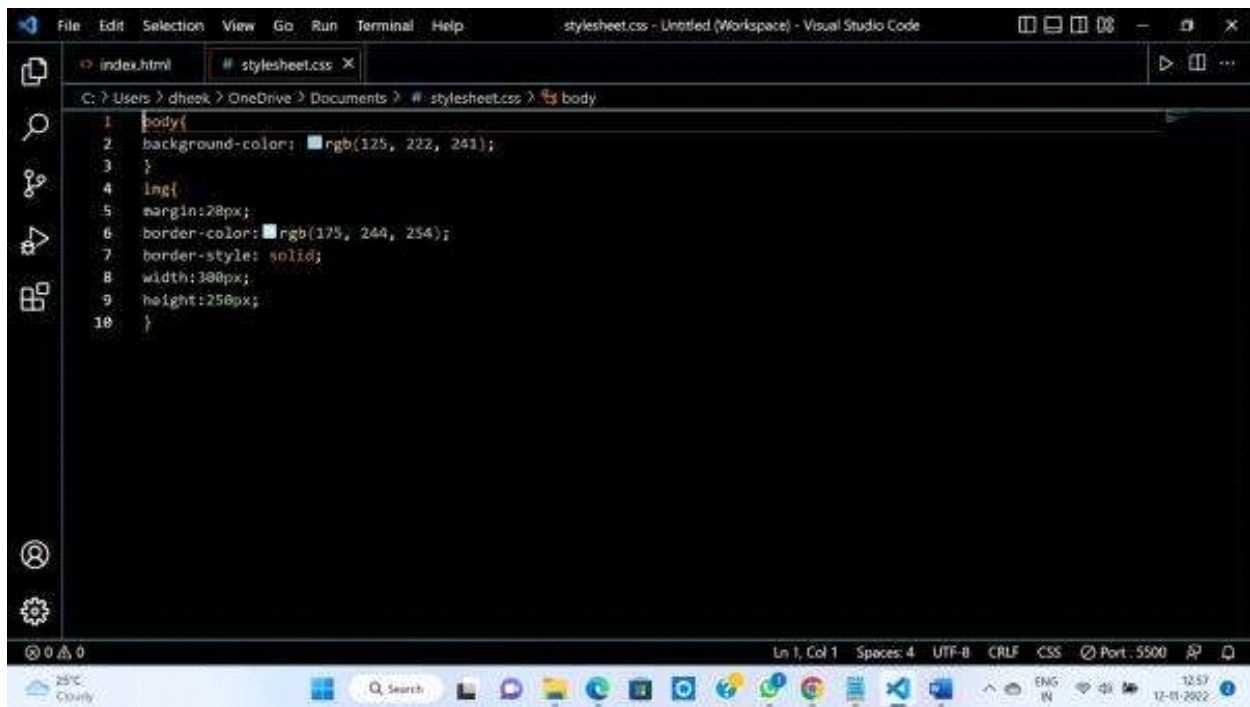

Upload an 5 images to IBM object storage and make it public. write html code to displaying all the 5 images

Question-3:
